

# THE FIREMEN'S PICNIC WAS A GREAT SUCCESS

ANNUAL EVENT YESTERDAY IS REGARDED AS ONE OF GREATEST CELEBRATIONS OF KIND EVER GIVEN BY THE ASSOCIATION.

Despite the fact that a great many people in the city were tired out as a result of being up late the night before watching the election returns, while many others were too interested in the late returns to leave the city, a fine crowd attended the picnic of the Volunteer Firemen's Association at Palmetto Beach yesterday morning and the occasion was a very successful one.

Promptly at the appointed hour the parade formed and proceeded along the route designated and was watched by hundreds of spectators, many of whom declared it was the best one ever given by the association on a similar occasion.

## CANAL SHOULD BE OPEN TO RAILROAD SHIPS

By Associated Press.  
Washington, May 1.—Maxwell Everts, general counsel for the Southern Railway railroad, before the senate committee on inter-oceanic canals, today declared that the Panama canal should be opened to railroad-owned ships and the traffic regulated by the interstate commerce commission to insure just and fair rates. He asserted that the real danger to the shippers and consumers did not rest upon the railroad-owned ships, but upon foreign aggregations of capital awaiting the opening of the canal.

## INTERESTING STATISTICS OF COLLEGE STUDENTS

By Associated Press.  
Cincinnati, May 1.—Interesting statistics given out by President Charles W. Babney of the University of Cincinnati, shows that a large percentage of students attending the school come from families in moderate circumstances, against the general belief that the institution was made up of students from the families of the rich. A canvass of a report of the students reveals the fact that only five per cent of the students come from what could be termed wealthy families. Seventy-five per cent come from families whose income is less than \$2,500. Thirty-five per cent of the student body come from families whose income is less than \$1,500. Eighteen per cent come from families whose income is from \$2,500 to \$7,500. Nineteen per cent of the students are fatherless and are being sent to the university by their widowed mothers. The investigation proves further that forty per cent of the families having sons or daughters in the university live in rented homes.

Appropos of the latest foreign limousine—the limousine which slides back for aviation meetings—Frank Coffin, of hydroplane fame, said the other day in New York. "This conversation reminds me of a conversation I overheard between two girls. 'It was an awfully smart crowd at the flying,' said the first girl. 'I saw some awfully nice frocks.' 'And who flew?' the second inquired. 'Don't ask me!' said the first girl. 'Do you think I was going to take off my new frock just to see a lot of aeroplanes?'—Chicago News.

"What did she play?" "The 'Last Hope'—such an appropriate selection." "Why do you say so?" "Because it matched the expression of her features when they heard her begin it."—Baltimore American.

## LOOKOUT TESTIFIES HAD NO BINOCULARS

Frederick Fleet.

Washington, May 1.—For the want of binoculars the Titanic was lost. So testified before the senate investigating committee Frederick Fleet, one of the men in the crow's nest when the Titanic struck the huge iceberg which sent her to the bottom. Fleet declared that had he the binoculars for which he had asked in vain he probably would have seen the iceberg in time to have averted the collision. This is the one fact which stands out most prominently of all in the senate investigation.

It was Fleet and his companion in the crow's nest, Leigh, who gave the only warning of the impending calamity. They sighted the dark bulk of the iceberg close on their bows just a few seconds before the collision came. Fleet sounded three bells when he telephoned to the bridge where he got prompt response, and instantly the bow of the boat shifted to port. The warning given a few seconds before the collision would have allowed time for the Titanic to have turned aside beyond the range of the iceberg. But the impending danger was not seen in time. For the lack of a pair of binoculars, worth not more than \$10, sixteen hundred lives and millions of property were lost.

## Pa Jumped at It.

The sad-faced young man came down the garden path, sombre and sorrowful, says Answers. The sweet girl watched him with anxious eyes. "How did father take it?" she asked tremulously. "He took it—well," came the reply. "Oh, I'm so glad, George," she cried excitedly, throwing herself into his arms. "Are you?" replied George, holding her limply. "Well, can't say that I am, dearest. At first your father refused to listen to me. 'Why not?' 'But didn't you tell him you had \$500,000 in the bank?' she exclaimed. 'I did,' came the dejected answer, 'when all else failed.' 'And what did he do then?' 'Do?' echoed the young man wearily. "Why, he borrowed it."

## The Box He Lost.

Six years was his age and he had gone out to his first party, says the Baltimore American. He had enjoyed himself immensely, and the only disappointment was that he hadn't been able to take the box with him, as she had a bad cold. "Now, Freddy," said his hostess to him, as he was about to take his departure, "I want you to take the box of chocolates home to your sister and her's another for yourself for your trouble." Freddy, like a well-behaved boy, thanked her nicely, and trotted off home with his nurse, the two boxes of chocolates clutched tightly in his two fat little hands. Unfortunately, he hadn't taken hold of nurse's hand, and he stumbled suddenly, so that one box of chocolates spread themselves on the dirty, muddy pavement. Freddy picked himself up and looked at the box intact in his hand; then he looked at the one in the mud. "Poor Sue," said he.

## Words or Bullets.

A rather turgid orator, noted for his verbosity and heaviness, was once assigned to do some campaigning in a mining camp in the mountains, says the Kansas City Times. There were about fifty miners present when he began. But when, at the end of a couple of hours he gave no sign of finishing, his listeners dropped away. Some went back to work, but the majority sought places to quench their thirst which had been aggravated by the dryness of the discourse.

Finally there was only one auditor left, a dilapidated, weary looking old fellow. Fixing his gaze on him the orator pulled out a large six-shooter and laid it on the table. The old fellow rose slowly and drawled out: "Be you goin' to shoot if I go?" "You bet I am," replied the speaker. "I'm bound to finish my speech, even if I have to shoot to keep an audience."

## The Old Fellow Sighed.

The old fellow sighed in a tired manner and edged slowly away, saying as he did so: "Well, shoot if you want to. I may jest as well be shot as talked to death."
